How to use The Ultimate Bowling Clipart Library

With normal software applications, the standard method of use is to double-click on the icon or installer. However, using **The Ultimate Bowling Clipart Library** is unlike using other applications on your computer.

Clipart libraries are considered content and not stand-alone applications. The media does not contain an installation program to install anything on your hard drive. This collection contains professionally drawn, high quality graphic images to be used with another application.

Using the Images

Open a document within your desktop publishing application, such as Microsoft Word. Once the document is open, use the option to import an image or graphic.

Insert **The Ultimate Bowling Clipart Library** media and locate the image to be imported. Adjust the image size appropriately.

As desktop publishing applications all use different methods to import images, it is important to consult your desktop publishing help file or user guide on instructions.

What is on The Ultimate Bowling Clipart Library Media

Images, with the exception of animated images, are supplied in the standard PNG (pronounced Ping) graphic format and JPEG (pronounced Jay-Peg). Almost every desktop publishing application supports use of PNG and JPEG images. If your desktop publishing application does not support the use of PNG or JPEG formatted images, then use a graphic tools, such as Paint.NET, that can open the PNG or JPEG file and then save in an image format you can use.

We have supplied most images in 4 size formats and are located in folders named Large, Medium, Small and Tiny. Images contained in the Large folder are of various widths and heights. Images contained in the Medium folder have a maximum width or height of 500 pixels. Images contained in the Small folder have a maximum width or height of 200 pixels. Images contained in the Tiny folder have a maximum width or height of 100 pixels.

Content in this collection incorporates new graphics, clipart and photos along with the consolidation of CDE Software's three prior collections, **The Incredible Bowling Clipart Gallery**, **The Art of Bowling** and **Totally Bowling**, including variations that were not previously released.

Images contained in this collection have a unique name to help identify it from the index. The same name is used for size variations.

Do's and Don'ts

Our license agreement follows this page and is also available on our website at www.cdesoftware.com. Here is a simplified explanation of some of the common questions as to what you can do or not do.

- You can make a copy of this collection for archival purposes, in case the media is damaged, but you may not distribute the copy or original to anyone else.
- If you are no longer using this collection and wish to pass it on to someone else, you will need to make sure you remove images from your computers and then complete and return the license transfer form available on our website to transfer the license rights to this collection. Simply handing the originals to another person does not transfer the license rights and must be approved by CDE Software before doing so.
- A bowling association purchasing the collection only gives the rights to the association officers or designated person the right to use the collection. Leagues and general members of the bowling association are not given inclusive rights to use this collection. In other words, you cannot share this collection, even though the association purchased it.
- You may not use any of the content in the manufacturing of merchandise, regardless if the merchandise is given away or sold. An example that is prohibited is using an image to put on a shirt or ball towel that is sold or given away. You must contact CDE Software to obtain express written permission before doing so.
- You may use content from this collection for purposes of design of the licensee's website, but not place images on the website for purposes for distribution.
- When in doubt, ask. If you're not sure you can do something, contact CDE Software directly and explain what you are doing.

CDE Software continues the tradition of quality bowling clipart and photographs by introducing a new clipart collection.

THE Ultimate Bowling Clipart Library introduces new professionally designed bowling themed clipart illustrations and photos along with our prior collections in a new DVD format and bonus material.

Images and clipart are available in PNG and JPEG formats with four different file sizes and are compatible with a wide range of desktop publishing products.

Visit our website to see a sample index of this collection and license agreement.
